

STATISTICS ON WOMAN ABUSE IN TEENAGE RELATIONSHIPS

- At least 73% of high school students in both Toronto and London reported either themselves, or someone they knew, had been in an abusive dating relationship.
- ½ of high school students surveyed in Toronto had been involved in a date rape or know someone who had.
- 1 in 9 high school girls surveyed in Toronto reported physical abuse.
- 1 in 5 high school girls surveyed in Toronto reported sexual abuse.
- In Canada 49% of female rape victims are under the age of 17.
- 57% of rapes happen while on a date.

- One study on teens and sexual assault found that:
 - 30% had been raped by a friend
 - 11% had been raped by a boyfriend
 - 78% did not tell their parents
 - 71% confided in one or more of their teenage friends - not someone experienced in helping
